

YELLOW = Updated from live site
Event dates, venue names, ASEAN Trade Show dates, award dates, and evaluation criteria — all updated to match galinglikha.github.io

BLUE = Fabric count fields (NEW)
Thread count (EPI/PPI), crimp measurements, and fiber composition declaration — new fields aligned with the Fabric Count Calculator and DOST-PTRI validation process

Online: bit.ly/awdasignup | Email: amazingweaves.ph@gmail.com | Tel: 0956-506-2811
One entry per LGU · Physical swatch: 12 inches x 12 inches, couriered to Island Secretariat

Instructions: Complete all 10 Parts below. Submit online via bit.ly/awdasignup (JotForm). Upload a signed PDF of this form (signed by LCE and Community Leader). Physical swatch (12 inches x 12 inches exactly, labeled with entry tag) must be couriered to your designated Island Secretariat hub. Keep the courier waybill number and enter it in Part 7. Parts 8A and 8B are NEW — fabric count measurements from the AWDA Fabric Count Calculator. They support your fiber composition self-declaration and DOST-PTRI verification.

PART 1 — LGU Information

Field	Your entry
LGU Name (Province / City / Municipality)	
Province	
Region	
Island Group	☐ Luzon ☐ Visayas ☐ Mindanao / BARMM
LGU Classification	☐ Province ☐ City ☐ Municipality
Selection event your LGU will attend	
Local Chief Executive — Full Name & Title	
LCE Contact Number	
LCE Email Address	
GAD Focal Person — Full Name	
GAD Focal Person Contact / Email	
AWDA Entry Coordinator — Full Name	
Entry Coordinator Contact / Email	
Mailing Address	

UPDATED (from live site): Selection event dates updated from live site: Luzon: 10-12 August 2026, SM North EDSA · Visayas: 14-16 August 2026, SM Cebu Atrium D, Mabolo · Mindanao: 21 August 2026, SM City Zamboanga · National showcase: 15-17 October 2026, Likhang Filipino Exhibition Halls, International Trade Center Complex, Roxas Blvd · Distinction Awards: 7 November 2026, Okada Manila · ASEAN Trade Show: 10-12 November 2026, Grand Ballroom, Okada Manila

PART 2 — Award Category & Evaluation Criteria Alignment

Field	Your entry
Award Category (tick ONE only)	☐ LGU Champion ☐ Master Weaver ☐ Women's Enterprise ☐ Young Weaver

UPDATED (from live site): The evaluation criteria on the Galing Likha website list six dimensions. These are the criteria used by IWSC judges. Ensure your application narrative addresses ALL six:

Criterion	Weight	What your application must demonstrate
Cultural Protection	20%	Documentation of outstanding indigenous weaving with strong cultural narratives, authentic attribution, and craft excellence
Craft Excellence & Eco-Innovation	20%	Technical mastery; natural fiber sourcing; regenerative production models; ethical commercialization
LGU Policy & Ecosystem	15%	LGU enabling policies; GAD-funded programs; strengthened weaving ecosystem development
Community Impact	15%	Responsible raw material sourcing; active skills transfer to younger generations through mentorship and training
Market Access & Value Chain	15%	Demonstrated value chain integration; market linkages; fair benefit distribution across the community enterprise
Sustainable Livelihood	15%	Weaving traditions sustained for women and artisans using GAD resources; replication and adoption models

PART 3 — Weaving Community / Partner

Field	Your entry
Full registered name of community / cooperative / association / cluster	
Registration type	☐ CDA-registered cooperative ☐ DOLE-registered association ☐ Recognized IP community ☐ Informal cluster
Barangay / sitio location	
Is this an Indigenous Peoples (IP) community?	☐ Yes — Ethnic group: _____ ☐ No
IPMR name (if IP community)	
NCIP registration / CADT reference (if IP community)	
LCI / PRECUP listing status	☐ Listed in NCCA LCI / PRECUP ☐ Submitted (awaiting acknowledgment) ☐ Not yet listed
Total active weavers in community	
Number of women weavers (and %)	___ weavers = ___% women
Number of active apprentices enrolled in training	
Women as % of cooperative officers	___% of officers are women (AWDA target: at least 60%)

Community / Cooperative Leader — Full Name & Title	
Community Leader Contact Number / Email	

PART 4 — Weave Description & Cultural Narrative

Field	Your entry
Local name of the weave (indigenous / Filipino language)	
Common name / brand name (if any)	
Primary raw fiber	e.g. 100% abaca / 80% pina + 20% silk / 100% cotton
Dye type	☐ 100% natural dyes (specify source below) ☐ Mixed: ____% natural / ____% synthetic ☐ Synthetic dyes
Natural dye source(s)	
Weaving technique	e.g. backstrap loom ikat / floor loom supplementary weft / tapestry / plain weave
Loom type	e.g. backstrap loom / wooden treadle floor loom / pit loom
Approximate age of tradition (years)	
Documentation status	☐ Listed in NCCA LCI / PRECUP ☐ Formally documented (own / PTRI records) ☐ Oral tradition — in progress ☐ Undocumented
Motifs used (list all; indicate if restricted or sacred)	
Are any motifs restricted or sacred?	☐ No restricted motifs in this entry ☐ YES — see Sacred Motif Declaration below

Sacred / Restricted Motif Declaration (mandatory if ticked YES above): For entries featuring restricted or sacred motifs, you must declare whether commercial use is permitted and provide authorization from recognized custodians / elders. Restricted motifs may be showcased for recognition subject to community protocol but shall NOT be presented as commercially available without explicit custodial consent. Complete the declaration below and attach the authorization document.

Sacred / Restricted Motif Commercial Release Declaration:

I declare that every motif in this entry that is sacred or restricted has been formally released for commercial use by the IP community's traditional governance structure, as evidenced by the attached authorization. List of motifs and their commercial release status:

Cultural Narrative (300-500 words): Write or upload your narrative as an attachment in JotForm. Include: origin story, cultural function, motif meanings in local language, how knowledge is transmitted, current status of the tradition, and the community's relationship to it.

[Write your cultural narrative here, or upload as attachment in JotForm — see submission checklist]

PART 5 — LGU Ecosystem & GAD Programs

Field	Your entry
Ordinance / EO number and date naming this weaving tradition	
Annual total LGU budget (FY 2025, PhP)	
Total 5% GAD budget (FY 2025, PhP)	
GAD budget allocated specifically for weaving (PhP and %)	PhP _____ % of GAD budget (AWDA target: at least 5%)
GAD Accomplishment Report — actual disbursement for weaving (FY 2025, PhP)	
Institutional body for weaving (name and constituting EO)	
IPMR seat in institutional body	☐ Active IPMR seat ☐ Vacant ☐ Not applicable
Training / apprenticeship program description	
Number of active apprentices enrolled	
Active partnerships (DOST-PTRI, DTI, NCIP, NGOs, academe, private sector)	
Heritage hub / weaving center	☐ Operational: _____ ☐ Planned (target date: _____) ☐ None
Heritage documentation center / archive	☐ Established ☐ Planned ☐ None

PART 6 — Market Access & Value Chain

Field	Your entry
Current sales channels	☐ Local market / LGU trade fair ☐ National buyers ☐ Export / international ☐ Online / e-commerce ☐ ASEAN Trade Expo
Average wholesale price per meter / piece (PhP)	
Average retail price per meter / piece (PhP)	
Estimated % of retail price retained by weavers	____% retained by weavers (AWDA Score 5 target: at least 60%)
Annual cooperative sales volume (PhP, most recent year)	
Export presence?	☐ Yes — countries: _____ ☐ No
Online / e-commerce platforms	
Existing brand partners or institutional buyers	

Market development plans for next 2 years	
Value chain integration — describe how weavers connect to end buyers	

PART 7 — Sustainable Livelihood & Eco-conscious Innovation

Field	Your entry
Natural dye / eco-friendly production process?	☐ Yes — describe below ☐ No
Natural dye and eco-process description	
Regenerative raw material sourcing (describe)	
Community-controlled natural resource (e.g. natural dye garden, fiber nursery)	☐ Yes — describe: _____ ☐ No
Youth / intergenerational skills transfer program	☐ Formal apprenticeship program ☐ Informal mentoring / learning ☐ No active program
Number of youth weavers (under 35 years old)	
Eco-innovation (new applications, zero-waste processing, upcycling, circular model)	
Climate resilience measures for the weaving practice	
GAD resources used for sustainable livelihood programs (describe)	
Replication model — can other LGUs or communities adopt your approach?	☐ Yes — describe: _____ ☐ Not yet documented

PART 8 — Physical Swatch Submission

Swatch standard (from live site, Annex C): Exactly 12 inches x 12 inches. Attach a labeled entry tag. Courier to your Island Secretariat hub. Do NOT fold or staple. Roll and pack flat. Keep the courier waybill number and enter it below.

Field	Your entry
Island Secretariat hub where you sent the swatch	
Courier service used	
Waybill / tracking number	
Date dispatched	
Entry tag — local weave name	

Entry tag — fiber composition (type and %)	
Entry tag — artisan / cooperative name	
Entry tag — LGU name	
Entry tag — date of production	
Entry tag — entry code (Secretariat assigns this)	

PART 8A — Fabric Count Measurements (NEW — Fabric Count Calculator data)

FABRIC COUNT FIELD (New): These fields are NEW. They are filled using the AWDA Fabric Count Calculator. Use a pick glass (thread counter) to measure your 12 x 12 inch swatch before courtering it. Enter your three warp readings and three weft readings in the Calculator — it will produce averages and result values to copy here. These measurements support your fiber composition self-declaration and help DOST-PTRI prioritize validation for entries near a score threshold boundary.

Step 2 — Warp Thread Count (Ends Per Inch)

Warp threads run lengthwise (up-down on the loom). Place your pick glass on the swatch and count the vertical threads inside the 1-inch window. Count at THREE different spots.

Warp measurement	Reading 1 (top-left)	Reading 2 (center)	Reading 3 (bottom-right)
Ends per inch (EPI) — count of warp threads in 1 inch	—	—	—
Average EPI (from Calculator — enter here)	Average EPI: _____		

Step 3 — Weft Thread Count (Picks Per Inch)

Weft threads cross the loom from side to side. Rotate your pick glass 90 degrees and count the horizontal threads in the 1-inch window. Three readings from the same spots.

Weft measurement	Reading 1 (top-left)	Reading 2 (center)	Reading 3 (bottom-right)
Picks per inch (PPI) — count of weft threads in 1 inch	—	—	—
Average PPI (from Calculator — enter here)	Average PPI: _____		
TOTAL THREAD COUNT = Average EPI + Average PPI	Total TC: _____ threads per square inch		

Step 4 — Crimp Measurement (for DOST-PTRI fiber verification)

Unravel one warp thread and one weft thread from the swatch edge. Straighten each gently (do not pull or stretch). Measure the straightened thread length and compare to the fabric dimensions. Formula: Crimp % = ((Thread length - Fabric length) divided by Fabric length) x 100.

Crimp measurement	Warp thread	Weft thread
Fabric dimension (inches) — measure before unravelling	Fabric length: ___ inches	Fabric width: ___ inches
Unravalled thread length (inches) — straighten gently, do not pull	Warp thread: ___ inches	Weft thread: ___ inches
Crimp % (from Calculator — enter here)	Warp crimp: ___%	Weft crimp: ___%
Crimp interpretation (tick from Calculator result)	☐ Normal (1-5%) ☐ Low - verify (<1%) ☐ High - recheck (>8%)	

FABRIC COUNT FIELD (New): Typical crimp ranges: Pina: 1-3% (stiff fiber). Abaca and cotton: 3-6%. Above 8% may indicate loose weave structure or measurement error. DOST-PTRI applies a standard 5% crimp correction when verifying fiber content near a threshold boundary. If your crimp shows HIGH, re-measure before submitting.

PART 8B — Fiber Composition Self-Declaration (NEW — Fabric Count Calculator)

FABRIC COUNT FIELD (New): This is a formal self-declaration that matches the AWDA score bands. DOST-PTRI independently validates shortlisted entries near a threshold boundary. The values here must match what appears on your product label (AWDA sub-criterion c) and your cultural narrative in Part 4. Inconsistencies between the application form, the product label, and DOST-PTRI test results will affect your entry's credibility across the scorecard.

Fiber field	Your declaration
Primary fiber type	☐ Abaca (banana fiber) ☐ Pina (pineapple leaf fiber) ☐ Cotton ☐ Silk ☐ Bamboo ☐ Jusi (abaca-silk blend) ☐ Other natural: _____ ☐ Mixed natural + synthetic
Natural fiber % (self-declared)	Natural fiber: ____% Synthetic fiber: ____% Total: 100%
Fiber composition description	e.g. '100% abaca fiber' OR '85% abaca 15% cotton' OR '70% pina 30% silk'
AWDA score band (from Calculator — tick the band that matches your natural fiber %)	☐ Score 5 band — 100% natural fiber ☐ Score 4 band — at least 80% natural ☐ Score 3 band — at least 60% natural ☐ Score 2 band — at least 40% natural ☐ Score 1 band — less than 40% natural
Dye type declaration	☐ 100% natural dyes — source: _____ ☐ Mixed: ____% natural / ____% synthetic — describe: _____ ☐ Primarily synthetic dye
Product label fiber content (must match this declaration)	Confirm that your 12 x 12 inch swatch entry tag AND your final product label both state: _____
Source documentation for fiber % (tick all available)	☐ Supplier invoice or fiber composition certificate ☐ Own processing records (we process raw fiber) ☐ DOST-PTRI previous test result (year: ____) ☐ Estimate based on production knowledge
DOST-PTRI validation consent	☐ We consent to DOST-PTRI independent fiber testing of our entry if shortlisted near a threshold boundary. (Mandatory — entry cannot proceed without this tick.)

PART 9 — Heritage-to-Use Application (Required for National Finalists)

UPDATED (from live site): Heritage-to-Use is listed on the live site as a requirement for National Finalists. National finalists must present at least one physical Heritage-to-Use design application alongside the weave. This section should be completed by National Finalists only.

Field	Your entry
Heritage-to-Use design application type (tick all that apply)	☐ Clothing / fashion / couture ☐ Accessories and jewellery ☐ Interior and home textiles ☐ Cultural performance wear ☐ Functional everyday items ☐ Other: _____
Name of designer / design partner (if any)	
Description of the Heritage-to-Use piece	
How does the design application credit and benefit the weaving community?	
How is cultural authenticity protected in the design application?	

Is the Heritage-to-Use piece physically available for showcase at Okada Manila (Nov 7)?

☐ Yes ☐ No — explain: _____

PART 10 — Declarations & Signatures

We, the undersigned, declare and attest that:

1. All information in this application is true, accurate, and complete to the best of our knowledge.
2. The nominated weave is produced within the LGU's jurisdiction by the identified weaving community.
3. The weaving community has given free, prior, and informed consent (FPIC) to participate, and benefit-sharing arrangements are in place (Annex D-3).
4. Every motif in this entry that is sacred or restricted has been formally released for commercial use by the IP community's traditional governance structure. If any sacred or restricted motif has NOT been released, we have NOT submitted it.
5. No child labour (persons under 18) is involved in any step of production — fiber sourcing, dyeing, weaving, or finishing.
6. We understand that submission of false or misleading information, unauthorized motif use, forged endorsements, or plagiarism will result in automatic disqualification — including retroactive disqualification after an award has been announced.
7. We authorize the AWDA Secretariat to use documentation, photographs, measurements, narratives, and fabric count data submitted for AWDA 2026 program purposes, including promotion, exhibition, archiving, and DOST-PTRI fiber verification.

SUBMISSION CHECKLIST — Complete before submitting

Done	Item	Where to submit
☐	Completed online application (all 10 Parts) via bit.ly/awdasignup	JotForm online
☐	Signed hardcopy PDF of this form (LCE + Community Leader signatures)	Upload in JotForm
☐	Annex D-1: Community Consent & Endorsement Form	Upload in JotForm
☐	Annex D-2: Authenticity & Attribution Declaration	Upload in JotForm
☐	Annex D-3: Benefit-Sharing Statement	Upload in JotForm
☐	Certified copy of LGU Ordinance / EO naming the weaving tradition	Upload in JotForm
☐	AIP / BDIP page showing GAD budget line item for weaving (peso amount and %)	Upload in JotForm
☐	GAD Accomplishment Report (most recent fiscal year)	Upload in JotForm
☐	EO / Resolution constituting the Weaving Heritage institutional body	Upload in JotForm
☐	Cooperative officer list (current year) — with women % clearly shown	Upload in JotForm
☐	Apprentice roster and / or training plan	Upload in JotForm

☐	Cooperative sales records OR Key Informant Interview (KII) notes for income and value retention data	Upload in JotForm
☐	Process photographs — at least 10, minimum 2 megapixel resolution	Upload in JotForm
☐	FABRIC COUNT DATA: Part 8A — EPI and PPI readings (3 each), averages, total thread count	JotForm Parts 8A
☐	FABRIC COUNT DATA: Part 8A — Warp and weft crimp % measurements	JotForm Part 8A
☐	FABRIC COUNT DATA: Part 8B — Fiber % self-declaration with AWDA score band ticked	JotForm Part 8B
☐	FABRIC COUNT DATA: DOST-PTRI consent tick box in Part 8B completed	JotForm Part 8B
☐	Fiber composition source document (supplier invoice, own processing records, or PTRI previous test result)	Upload in JotForm
☐	Physical swatch — exactly 12 x 12 inches — with labeled entry tag — couriered to Island Secretariat hub	Physical courier
☐	Courier waybill / tracking number entered in Part 8	JotForm Part 8
☐	Sacred motif commercial release documentation (if any restricted motifs used — Gate 2)	Upload in JotForm
☐	NCIP certificate / CADT reference (IP community entries — mandatory for Gate 3)	Upload in JotForm
☐	NATIONAL FINALISTS ONLY: Heritage-to-Use physical design application (garment / accessory / interior / home item)	Bring to venue
☐	NATIONAL FINALISTS ONLY: Heritage-to-Use description and designer attribution (Part 9)	JotForm Part 9
